## ANTI-SALOON LEAGUE DETECTIVE MOBBED

CONFESSED TO HAVING KILLED  
EX-POLICE CHIEF WHO WAS  
CHARGED WITH ILLEGAL  
SALES OF WHISKY.

## SHERIFF ASKS FOR TROOPS

Mob Works Hurriedly and Surely.  
Heavy Doors of Jail Battered  
Down and Victim Drag-  
ged Forth.

Newark, Ohio, July 8.—Carl Etherington, 22 years old, employed Thursday night by the State Anti-Saloon League as a blind tiger raider, was lynched here at 10:35 tonight following a day of almost continuous rioting.

The heavy doors of the Licking County jail were battered down and Etherington was dragged from his cell.

He was shot, kicked and bruised before the street was reached and the finish followed quickly.

Etherington early in the evening confessed he killed William Howard, proprietor of the Last Chance restaurant and former Chief of Police, in a raid of an alleged "speak easy" in a raiding scuffle at 1:30 this afternoon and narrowly escaped lynching at that time.

When news from the hospital that Howard had died passed over the city at 9 o'clock tonight the fury of the mob took definite form. Large battering rams were directed upon the doors of the jail and the deputies were powerless. The doors fell after nearly an hour's attack.

Crying piteously, Etherington, a curly headed Kentuckian, who has been serving as a strikebreaker since he was released from marine service three months ago, was dragged forth. "I did not mean to do it," he wailed. His cries fell upon deaf ears.

Fearing that the mob spirit would not be satisfied by one victim, Sheriff Linke immediately asked Adj. Gen. Weybrecht for troops to protect six other "dry" raiders held at the city prison in another section of the town.

A hurried guard was thrown out their defense. The mob after the first taste of blood seemed to quiet, but it is feared that they will storm the city prison before the night is finished.

Etherington's last moments, while he heard the mob battering down the doors, were spent in parrying and writing a note to his parents, farmer residing near Williamsburg, Ky.

"What will mother say when she hears of this?" he kept moaning to the jailer.

## PONTOTOC SOCIALISTS CIRCULARIZE COUNTY AGAINST ADA NEWS

STANLEY J. CLARK THE APOSTLE  
OF PONTOTOC COUNTY SOCIAL-  
ISTS INVITES HIS OWN DOWN-  
FALL AMONG HIS DISCIPLES.

## MR. CLARK TRESPASSED TOO FAR

Mr. Clark's Career and Treatment of  
the News Must Result in a Little  
Chastisement—Another Offense and  
the Second Degree for Him.

The Socialist party of Pontotoc county in three days encampment at Ada, concluded Wednesday, had for its principle protagonist Stanley J. Clark.

In Tuesday's issue of the News, there were published some references, principally of news import, regarding the progress of the socialist encampment. Mr. Clark and his proteges took exception to some of the News' references and called on the socialist encampment to pass resolutions of retaliation against the News. The encampment accepted Mr. Clark's resolution, as a matter of course. The Pontotoc county socialists appear to love the personal and to cherish the imported doctrines of Stanley Clark. The resolutions passed by the Socialist encampment with a "hip and hurrah" signed by the county chairman, A. A. Walker and county secretary, M. R. Palmer, printed by the Democrat (for pay of course) and scattered broadcast throughout the county, among other declarations, declared that "The Socialist party had never declared itself in favor of free love, or negro equality, has never opposed the church nor religion, but have people in our party belonging to every church under the sun." Declared that Taft denied the divinity of Christ and that Thomas Jefferson, the father of the democratic party was an infidel. The resolutions go on to "brand the utterances contained in the Ada News concerning the socialist encampment and Stanley J. Clark as an aggregation of falsehoods and a dirty attempt to besmirch the character of Comrade Clark because they can't meet him in debate." The concluding clause of the resolutions of the Pontotoc county socialists in encampment assembled with King Clark directing, reads: "We dare, we double dare the Ada News to find one man who will say that he heard Clark say he was in favor of free love, negro equality, or the abrogation of the home." The News did not state that it knew or had been told that Stanley J. Clark was in favor of free love or the abrogation of the home." The implicit statement of the News was that "Clark appeared to be a follower of the German socialist, Herr Bebel, the advocate of free love and the abrogation of the marriage law and other demoralizing theories."

The fact of his admittance in McClain county, that he endorsed Herr Bebel, predicated the implication that he held in contempt what is regarded superlatively by Christian nations as the most sacred principles on earth.

The socialist party of Pontotoc county has pasted every precinct in the county with circulars reflecting on the integrity of some utter-

ances of the News that were displeasing to its socialist boss, Stanley J. Clark. Of course the bulk of the socialists of Pontotoc county are honest. It seems that they do not realize what damning things underlie the real structure of the socialist party. The writer believes there lie such things of which Stanley J. Clark denies being the exponent. And Stanley Clark is looked on as being one of the boldest and most radical socialists in the country.

Stanley Clark for the financial treatment of the writer personally and for the treatment of the News, directed by him, by the county socialist party shall have inflicted on him the contempt of the Christian public. There is published hereunder an authentic letter from a young lady in Arkansas to Mr. Clark. She is evidently his disciple. See what he has done for her. Socialist parents of Pontotoc County, how about your pure, sweet daughters?

Bentonville, Ark.,  
May 29, 1908.

Mr. Stanley J. Clark,  
Huntington, Ark.

Dear Comrade Clark:—

I have just written to Mr. Snow, and told him about the good we got from your lectures here, and decided I would write to you too.

We have been afraid you were disappointed in your work here because I had written to the state secretary, and told him we had things just ready for a good lecturer, and since the people seemed so unappreciative we thought you might think I had things misrepresented. I know it was dreadfully hard on you to lecture at a place like this, but I can assure you that you have done a great deal of good for socialism in this nook of ignorance.

I (Mr. Munson) think we could not have had any thing here that would have done more good than the lectures you gave, and you cannot imagine how much we appreciate what you did for us here. One thing sure—we will have easier sailing from now on because the people have found out for a fact that socialism is a pretty good thing after all. I have talked to quite a number of people since the lectures and so many feel sorry that they missed the one Sunday evening and everyone almost is censuring those men that sent word out that we would have no meeting Sunday night. One of our most conservative men told me before you came that the democratic party always had, and always would be good enough for him. Since then he said all the objection that could possibly be found to your lecture was that it was not long enough. He is anxious

for you to come back, and is also very anxious to read anything on socialism. You know I am losing no opportunities to distribute literature.

Am sending to Snow for supplies to organize a local, and we are sure or fifteen faithful members (5 Chen-eyes) on the start, and of course will soon get more. Yesterday we hear of a German that has just moved in four miles from here and he is a red hot socialist. We will have some votes on our side from Centerton or a "Hell-of-a-row."

We are going to try to have music, recitations, some feature at each meeting to attract outsiders—will have my "soap box" always at each meeting, too. I want every attraction we can get to make our meetings nicer and more interesting to the young people than the dope they get at the Lord's church.

I long to see the day when these old heathenish ideas called religion will have sunk into oblivion and humanity works for humanity instead of a god (?) sitting perched away up on some pinnacle.

Hope you are feeling well again and are meeting with people who appreciate your efforts put forth for the uplifting of the human race.

All the Cheney family joins in sending you our kindest regards and best wishes. Yours for Socialism,

Louise Cheney.

P. S.—You made one convert to "spiritualism" while here—that's Mark. He always hold a seance when his friends come and displays the mysterious moving of the dimes—much to their astonishment I might add.

I have sent for the books you were telling me about.

L. C.

Entered as Second Class matter, March 26, 1904, at the Postoffice at Ada, Okla., under the Act of Congress of March 3, 1879.

Since the Hook decision nullified the democratic law regulating railroad traffic passenger and freight rates have advanced from fifty to two hundred per cent. Yet not a single republican paper of any standing condemns the decision. Very few republican papers of any standing even comment on the decision. And possibly one hundred republican papers in the state have never mentioned the decision even in their news columns.

The conclusion is inevitable. To endorse the decision would be to destroy the republican party. To denounce the decision would be to invite the question, "Why did the republican leaders assist the railroads in obtaining that decision?" When it was necessary to obtain affidavits in order to win such a decision, the railroads called upon Oklahoma republicans, and they did not call in vain. The affidavits were produced, the decision was rendered and millions have been added to the freight bills of Oklahoma.

In 1890 the republicans elected only two congressmen from the southern states. This was before the negro had been eliminated from politics in a single state. In 1908 the republicans elected twenty-two congressmen from the southern states. This was after the negro had been eliminated from politics in nearly all the southern states. In Arkansas, where the negro has not been eliminated the republicans failed to elect a single representative in 1908. In North Carolina, where the negro has been eliminated the republicans elected three representatives in 1908.

These facts are suggestive. They prove that where the negro is in politics the republican party is weak and where the negro is out of politics the republican party becomes strong. In view of these facts what becomes of the partisan contention that the Grandfather Amendment is designed solely to make Oklahoma a democratic state?

### Some Fine Onions.

R. P. Price, a farmer who knows how to do things, brought into the News office this morning, four large fine onions which weighed nearly a pound each, and he says these are not the best he has raised either.

You appreciate how uncomfortable the kitchen is these warm days? It will be worse as you advance further in the summer. Why not use electricity and be cool? You can cook, bake, operate your sewing machine, wash and iron. In fact, there is nothing which cannot be accomplished with electricity that is accomplished by either gas or an ordinary range. It is odorless, no heat, no smoke simply press the button and we do the rest.

## TO THE PEOPLE OF OKLAHOMA.

Part of the process of building our new state is the necessary creation of public institutions.

### Insane

When the state government first began we had no state insane asylums and our insane patients were being kept at a private institution in Oklahoma Territory and another private institution in St. Louis, Missouri, at contract rates which afford a large profit to the private institution and consequently an unnecessary expense to our taxpayers. To provide state care at economic rates it was necessary to build insane asylums. Oklahoma Territory had already located one asylum at Ft. Supply in the extreme west end of the state, and the legislature continued the enlargement of that institution and also located an additional insane asylum at Vinitia in the east end of the state.

### Prisoners.

The prisoners of Oklahoma Territory were being kept under contract at the Kansas State Penitentiary and of Indian Territory at various Federal prisons in other states. Kansas was keeping our prisoners because there was a profit in the price they charged Oklahoma for doing so. In order to reduce the expense of government and provide necessary means for detaining and caring for prisoners it was necessary to build a state penitentiary at home and this penitentiary is now nearly completed and both the asylum and the penitentiary being completed will largely reduce the cost of maintaining these two features of state government and no private institution or institution of other states would care for our patients or prisoners except at a good profit. Likewist the east half of the state was wholly without state educational institutions, and the agricultural and mechanical education of the state, representing the chief source of wealth and industry of Oklahoma was entitled to larger and better facilities and we believe that the legislature of Oklahoma acted wisely in meeting these economic and educational necessities.

Examining the journals of the House and Senate it will be found that the creation of these institutions were not partisan measures but that practically every one of them was approved by the members of both political parties, so that they are distinctly non-partisan in their creation and management.

### Cost of Buildings.

In providing funds for the creation of these buildings the state herewith shows the source from which the cost of public buildings is provided and having first applied the accumulated cash the remainder of the cost of building, which will come from future rentals and sales of lands, is to be made immediately available by the issue and sale of public building warrants, the tenor of which is set forth in the attached statement.

These public building warrants bear five per cent interest per annum, payable semi-annually, and being free from taxation are equivalent to about seven and one-half per cent income to the owner thereof. These warrants could readily be sold to the eastern insurance and other investment companies except for the provision that "the state is not liable for the payment thereof," which, to a stranger, calls for an explanation, and the explanation is this: All necessary public buildings are provided for from the rentals and sale of public building land, and, being the case, the general credit of the state could not be given by the act of the legislature authorizing these warrants and, as the stranger does not know the value of these public building lands, he naturally is uncertain as to the intrinsic value of the warrants, but from the statement below, as to the funds to be received from the land already sold and appraisal of the remainder of the land, it will be readily seen that there is an abundance of security and annual income to make an absolutely certain investment and prompt payment of both principal and interest of these public building warrants.

There is no uncertainty based on a speculative estimate. The experience for years has shown the certain income from land rentals and the sales of one-fifth of the public building land show a certain income more than one-fourth greater than the appraised value.

Another important reason for addressing the people lies in the fact that certain of the special interests of our great country, which feel aggrieved at their failure to dominate the state, have sought to coerce Oklahoma into submission to their demands for unfair privileges and exemptions, and, as out of the means of coercion, seek to limit the usual financial opportunities of our state in the great money centers of the east, but Oklahoma has within itself ample means to provide for its own necessities and it cannot afford to concede unwarranted and unjust privileges to these powerful interests in exchange for financial favors.

These public building warrants are

abundantly secured.

The prompt payment of both principal and interest is abundantly provided for.

To complete these institutions the state needs to sell the unsold part of One Million Two Hundred Forty Thousand Two Hundred Fifty Dollars of these public building warrants.

This amount is insignificant compared with the great wealth of the people of our own state, therefore Oklahoma does not need to be a beggar in the money markets of the east, nor to bow to the dictation or the coercion thereof.

In the interest of Oklahoma, and

### B. H. MASON SHOT SELF.

While Showing His Family Mechanism of Automatic, Accidentally Sends Bullet Through His Hand.

Mr. B. H. Mason, unintentionally, without malice or forethought, to the complete surprise of himself, last afternoon celebrated the near proximity to the end of his bachelorhood, by shooting himself through the hand. The unfortunate accident occurred at the home of Mr. Mason in Sunrise and resulted from awkward handling of an imperfect automatic as he was showing his sisters, Mrs. Tull and Miss Mason, the points of the gun.

The palm of Mr. Mason's hand was badly lacerated by the progress of the bullet before it passed out of the back. There was no bones shattered and the wound will heal readily.

### STRATFORD PREPARING FOR RELIGIOUS DISCUSSION

Dr. I. U. Yandell of Farris, Okla., was in the city this morning en route to Stratford, where he goes to hold a religious discussion with Rev. C. Stetson. The series of debates begin Monday, the 11th, and continue throughout the week. Large congregations are expected to be in attendance each day.

Arrangements have been made to hold the discussions in the open air, so as to keep cool. Rev. Yandell is of the Baptist faith, while Rev. Stetson is of the Christian.

### WHY THE COUNCIL DID IT.

Weaver of the Second Ward Tells Why Shelby Downard People Were Given Paving Contract.

There has been some adverse comment on the action of the city council in re-letting the paving contract to the Shelby Downard people at their original bid, over a new and lower bidder.

The reason for this act, when explained to the property owners effected by the contract, has been, as a rule, satisfactory, but that the general public might know, I am making a statement which I believe, each councilman voting therefor, will agree explains the reason for such action. Mr. Downard and representatives of the bond buyers came to Ada two weeks before the new proceedings were begun for the purpose of proceeding with the assessing ordinance and stated that they could not do any work until the assessing ordinance became legal, which, in following the law, would require 120 days, and if during that time, no injunction proceedings were filed (and it was known there would be) they would begin active work. The mayor objected to this delay on account of having the streets of the business district torn up during the cotton and trade season of the fall. After considerable argument between the mayor and contractors, the former made a proposition that, if satisfactory with them (contractors) he would recommend to the council to rescind the original paving resolution and readvertise for bids for the purpose of curing what defects or irregularities existed in the former proceedings, if they in return would agree to begin work immediately after the re-letting and further agree that their new bid would not exceed the original one.

Mr. Downard, at the outset, objected to this, but after consulting the attorneys for the bond buyers, he agreed to the readvertising and re-letting of the contract, provided he had some assurance from the council that they would be given contract at the old price.

Mayor Little then talked to a majority of the councilmen, and explained the proposition which he had made to Mr. Downard and each member approached, agreed that if Mr. Downard was willing to co-operate in correcting the irregularities which existed, they thought he was entitled to the contract at the original price. On these conditions, the bond people prepared the new proceedings for the reletting which cured all defects and irregularities thus insuring the removal of probable cause for injunction. This agreement, an action on the part of the council, results in a saving of four months time, in both the beginning and completion of the work. Another consideration. Under the first contract, the property owners would have been required to pay the first assessment on Sept. the 15th of this year, while under the new contract this assessment falls one year later. A total of nearly \$14,000, which the property owners will get the benefit of for more than twelve months. This benefit, coupled with the added advantage of getting immediate paving without the botheration of court injunction, which would mean indefinite delay, is, in my mind, good reason for the action taken by the council, to say nothing of the honorable obligation to the Shelby Downard people who had already invested upward of \$4,000 in the work, and who were not in the least degree responsible for the defects in the original letting, but which they were willing to have corrected upon the solicitation of the councilmen.

We have an exact analogous case in the letting of the 12th street contract. After the original letting, defects were found after work had begun. To cure these defects in red tape procedure the council re-opened the whole matter and gave the contract to the same people at the same price over a much cheaper bid; and

### WILL PUBLISH ALL.

The News has decided to publish in substantial part the speeches in verbatim of the "governors" in Ada Friday. It was intended to make full report of all discussions in today's issue, but since Miss Jernigan is especially busy with the week's end work of the office today, there has been limited time to transcribe all the speeches; and too, Governor Haskell made large requisition on the News' columns today for an article deemed by him as being important. The News shall publish all the speeches, one at a time. Brant Kirk's, this issue, Cruce's Monday, Murray's Tuesday, Ross' Wednesday.

it will be remembered in this instance property owners appeared and requested the council to award the contract to the same people.

For example and to illustrate: Suppose the First National Bank of this city should advertise for an assistant cashier. There are several applicants, among them Ed Haraway's bid is considered the most satisfactory and he is awarded the position. Maupin and Ed agree upon a contract at a stipulated price. Ed begins work. Maupin finds a technical defect in the contract and it is necessary to reopen the entire matter to satisfy the rules of the bank. Would Mr. Timberlake call in the old applicants to compete with Ed. I hardly think so. The other applicants would not have the temerity to even apply.

cent of the purchase price being fifty-three thousand three hundred and four dollars, was collected in cash, and turned into the public building fund. The remaining part of the purchase price, to-wit: About one million eight thousand dollars is payable in forty equal annual payments, together with five per cent interest thereon, payable annually. The security for these payments is the title to the land itself, and the improvements upon said lands, which were the property of the purchaser.

## Unsold Land.

It will be observed that there is yet two hundred seventeen thousand eighty-six acres of this public building land unsold; that the appraised value of said remaining lands is three million four hundred seventy-five thousand five hundred and forty-six dollars, which in our judgment should sell at as much above the appraised value as the previous sales have realized, so that in case these lands are all sold, the total selling price would be four million three hundred forty-four thousand four hundred and thirty-two dollars, which added to the deferred payments yet due the state on the lands already sold would create a public building fund of five million three hundred fifty-two thousand four hundred and thirty-two dollars, against which there is no claim whatever except the remainder of the appropriation for public buildings above enumerated, to-wit: One million two hundred forty-nine thousand two hundred and fifty dollars; so that the public building fund of the state will have a surplus of four million one hundred three thousand dollars after all of the buildings are completed, for which appropriations have heretofore been made. The remaining public building land will be offered for sale from time to time during the next few months, but for the purpose of this statement, we will treat all the remaining land as unsold and compute the resources of the public building fund upon the present actual basis:

## Annual Income.

Rentals of unsold land on four per cent basis on appraisement, \$139,013.00; Interest on deferred payments of land sold at five per cent, \$50,400; annual payment of principal, \$25,200; Total annual income \$214,613.00.

In order to provide for the building of the above enumerated public buildings, and provide funds for the cash payment therefor, the third session of the legislature authorized the is-

sue and sale of public building warrants. The act of the Legislature provided that the amount of public building warrants to be issued should in no event exceed the sum total of two million and twenty-five thousand dollars, and that only so much of said warrants as may be required to complete the payments for the buildings authorized by the legislature should be issued and sold. It will therefore be observed that the total amount of this issue of building warrants that can now be issued and sold would be the above mentioned sum of one million two hundred forty-nine thousand two hundred and fifty dollars.

These building warrants are issued in annual series of seventy-five thousand dollars each, the first series due the first day of May, 1912, and a like amount due the first day of May each year thereafter until all are paid. These building warrants bear 5 per cent interest per annum, payable semi-annually, and are a first and only lien upon the rentals and proceeds of sale of all the public building lands.

It will be observed that the annual income from rentals and interest is more than sufficient to make these annual payments of principal and interest of said building warrants, as is shown by the following computations:

Five per cent interest on \$1,249,250 of public building warrants \$62,462; Annual payment of principal beginning May 1st, 1912, \$75,000; Total annual payment, principal and interest, \$137,462.

As against this annual payment you have the above income of two hundred fourteen thousand six hundred and thirteen dollars, so that each year's income is over seventy-seven thousand dollars more than is required to pay the maturing interest and principal of these building warrants.

In addition to this fact, the year 1911 will accumulate over one hundred and fifty-two thousand dollars toward future redemption fund, due to the fact that no part of the principal of the public building warrants is payable until after the year 1911.

In case additional public lands are sold the income after lands are sold will be greater than the income from rentals, as the interest on land sold is five per cent as against four per cent for land rentals, and the selling price must be equal to or greater than the appraised value, which is the basis upon which rentals are charged.

It will be observed, too, that the public building warrants are non-taxable, so that in addition to drawing five per cent interest per annum the holder of these building warrants is free from taxation, which in most localities of the state would be equivalent to two and a half per cent saving, so that an investment by a citizen of this state in these public building warrants is equal to a net earning of practically seven and a half per cent on the money invested.

The entire statement above made as to public buildings, public lands, the rentals, sales or incomes therefrom, may be relied upon as being official statements from the public records. Respectfully submitted,

C. N. HASKELL, Governor.

## ADA SOCIAL EVENTS

Many Ada society folk attended the reception at Mrs. B. A. Mason's Friday afternoon, given in honor of Miss Mason's guest, Miss Oliphant, of Huntsville, Texas.

Mrs. Briles and Mrs. LeFevre stood at the entrance to admit the guests, who were received by Mrs. Mason, Miss Oliphant, Miss Mason and Miss Van Wormer. They were invited by Mrs. Hope to be refreshed with punch which was poured by Mrs. Rodarmel and Mrs. Tobin. Mrs. Eby escorted them into the parlors where they were entertained by Mrs. Thornton and Mrs. Galbraith.

There were nine tables at 42, and at intervals Miss Van Wormer, the vocal teacher at the normal, pleased the guests with beautiful vocal selections. A delicious grape ice with cake was served, the dishes garnished with sweet peas.

Mrs. Mason's pretty home was artistically decorated with potted plants and cut flowers in profusion.

In the evening a party of young ladies and gentlemen spent a most enjoyable time with Misses Mason and Oliphant.

Mrs. J. M. Wintersmith is entertaining the 500 club this afternoon.

The twenty boys, members of Mr. S. S. McDonald's Sunday school class with a few visitors, declare that nobody had a better time celebrating the 4th than they on that night from 7 to 9 o'clock, when they were entertained by their teacher. They met on the church lawn and had just as much fun as they could crowd into two hours. The teacher joined them playing foot ball and other games. Brother and Mrs. Wilson and Mrs. McDonald assisted in entertaining and serving ice cream. The boys suggested serenading a few friends and before they went to their homes they went about singing patriotic songs.

Mr. McDonald is to be congratulated on his fine class of boys. The fact of their love for their teacher shown by unusual good behavior and strict attention during class and good attendance is noticeable.

Thursday afternoon from 4 to 6 o'clock, Mrs. R. E. Blanks entertained friends complimentary to her sister, Miss Garrett, of Wills Point, Tex. and the Misses Greer who are Mrs. E. W. Hardin's guests from Wills Point.

The yellow and green color scheme was carried out in the decorations.

The cordial hostess met the guests at the door of the reception room and they were ushered into the dining room by Mrs. C. M. Chauncey, where they were served to punch by Mrs. Meyers and Mrs. Weaver. Seven tables enjoyed an animated game of 42, after which sherebert and cake was served.

## SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. ## WHEN HER BACK ACHES

A Woman Finds All Her Energy and Ambition Slipping Away.

Ada women know how the aches and pains that come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of

sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills permanently cure all these disorders.

Can Ada sufferers desire stronger proof than this woman's words?

Mrs. H. L. Sadler, of Coalgate, Ok., says: "Doan's Kidney Pills did more for me than any other kidney remedy I ever used. I suffered for more than three years from kidney disease in a severe form. My back ached constantly and there were dull, bearing down pains through my loins. I was also subject to dizzy spells and at times my sight became blurred. When the attacks were at their height, I was helpless and had to sit down. I doctored and tried everything I could think of in the hope of finding relief, but I was only helped temporarily. Finally I procured a box of Doan's Kidney Pills and shortly after beginning their use, I received a complete cure."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. 31
